COACHING SOLUTIONS

## Is working with a Coach right for my business?

**Here are some questions relating to the most common challenges my clients are addressing right now. Please tick any that may apply to your business.**

- 1 Do you/your business have enough time to work with individuals/teams who need more personal or professional support?
- 2 Do you have good systems in place for people who are working remotely or from home?
- 3 Are you or your people the public 'face' or 'voice' of your business? Are some of your people currently unproductive, disengaged and demotivated?
- 4 Are your people meeting and exceeding their KPIs on a regular basis?
- 5 Do you have the skills/time to create motivational presentations to encourage your people to exceed customer expectations?
- 6 Do you or would you consider using an external speaker on an ongoing or 'as required' basis to do this for you?
- 7 Do you have a communications strategy in place to enable easy and effective communication if there is a problem?
- 8 Do your people come to work to earn their wages or because they feel aligned with your vision and values?
- 9 Do you/your business celebrate successes or outstanding achievements? If yes, are these celebrations well attended?
- 10 Do you/your business encourage learning at lunchtime and/or social activities (online alternative if required)?

**If you would value a fresh perspective on any of these questions, let's talk.
